👤 Profile

I am a committed web developer devoted to contributing to team success through hard work, precision, and excellent corporate skills. I possess a great prowess in HTML, CSS, Bootstrap, JavaScript, Jquery and React. I am familiar with the basics in Express.js and Node.js. I am keen to learn and grow to excel in the tech industry. I am both an efficient team player and solo worker. Not just work oriented but also a result oriented, seeking organizational opportunity to combine with interpersonal skill for the actualization of one's full potential and set goals and objectives of the organization.
